# GOVERNANCE OF RISKS OF UNCONVENTIONAL SHALE GAS DEVELOPMENT – WAYS FORWARD

National Academy of Sciences Workshop  
August 16, 2013

Mark K. Boling  
President

**Development Solutions**

Balancing Environment, Community & Economy

a division of Southwestern Energy

1. What should be regulated?

1. Who should regulate it?

1. How should it be regulated?

## Collaboration

- Identify the risks
- Assess the probability and potential impact of the risks
- Develop and propose strategies to mitigate the risks

## Innovation

- Test and refine the mitigation strategies
- Determine the optimum mitigation strategy

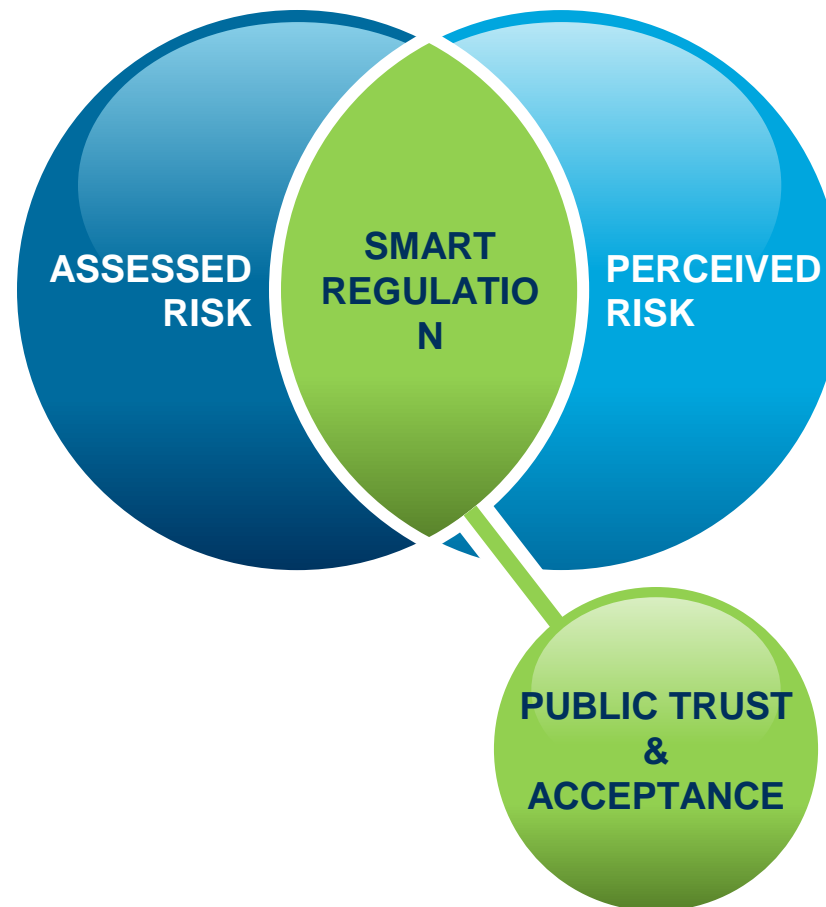

## Regulation

- Translate mitigation strategy to regulatory language

## COLLABORATION AND RISK COMMUNICATION
