

AREAS OF PROGRESS & FUTURE GOALS:

- Doctors and schools to provide resources to families upon diagnosis (100 day kit, local support groups, ART information)
- Continue to create and emphasize autism acceptance, awareness and understanding
- Providing continued training and support for schools and advocacy assistance for parents
- Assist families and agencies for transition services into adulthood

BARRIERS IN ACCESSING QUALITY CARE & SERVICES:

- Lack of meaningful autism insurance coverage
- Need for increased safety/wandering resources and supports
- Medical staff need increased training for treating persons with autism and other disabilities
- Disparity between metro and rural areas
