PEOPLE *News*

We note with sadness the death of *Courtenay Slater* on September 10, 2017, in Annapolis MD at age 84. Courtenay earned her Ph.D. in economics from American University and held positions as staff economist with the Joint Economic Committee of Congress and the Council of Economic Advisers. During the Carter administration, she was chief economist at the U.S. Department of Commerce, with responsibility for overseeing the Bureau of Economic Analysis and the U.S. Census Bureau generally and the 1980 decennial census specifically. After her retirement from government, she formed a demographic data consulting firm with the late George Hall, Slater-Hall Information Products, Inc., and was president of her own consulting firm, CEC Associates. In that capacity, she worked extensively with Bernan Press on books that provided federal statistical data, often replacing publications that had been discontinued by statistical agencies for budgetary reasons. Courtenay served on CNSTAT from 1982 to 1988 and was a member of the CNSTAT panel that produced *The Bicentennial Census: New Directions for Methodology in 1990* (1985, reissued by the National Academies Press on its 30th anniversary in 2015).

We thank **Howard Gruenspecht** for his 14 years of dedicated federal service as deputy administrator of the Energy Information Administration (EIA) in the U.S. Department of Energy (DOE). Howard left his position on August 31, 2017, to join the staff of the MIT Energy Initiative. From July 2011 to May 2012 and January to August 2017, he served as EIA's acting administrator. Before becoming deputy administrator in 2003, he served as director of economic, electricity, and natural gas analysis in the DOE Office of Policy, having originally come to DOE as deputy assistant secretary for economic and environmental policy. His accomplishments as a career senior executive at DOE were recognized with three Presidential Rank Awards. Prior to his service at DOE, he was a senior staff economist at the Council of Economic Advisers, with primary responsibilities in the areas of environment, energy, regulation, and international trade. He has a Ph.D. in economics from Yale University.

RECENTLY RELEASED REPORTS (available as free PDFs with printed copies to follow)

[*The 2014 Redesign of the Survey of Income and Program Participation: An Assessment*](#), released in prepublication format on August 28, 2017, is the final report of the Panel to Review and Evaluate the 2014 Survey of Income and Program Participation Content and Design, chaired by John Czajka (Mathematica Policy Research).

The Survey of Income and Program Participation (SIPP) is a national, longitudinal household survey conducted by the U.S. Census Bureau. SIPP serves as a tool to evaluate the effectiveness of government-sponsored social programs and to analyze the impacts of actual or proposed modifications to those programs. SIPP was designed to fill a need for data that would give policy makers and researchers a much

better grasp of how effectively government programs were reaching their target populations, how participation in different programs overlapped, and to what extent and under what circumstances people transitioned into and out of these programs. SIPP was also designed to answer questions about the short-term dynamics of employment, living arrangements, and economic well-being. The Census Bureau has reengineered SIPP—fielding the initial redesigned survey in 2014. This report evaluates the new design compared with the old design. It compares key estimates across the two designs, evaluates the content of the redesigned SIPP and the impact of the new design on respondent burden, and considers content changes for future improvement of SIPP.

EVENT & OTHER *News*

The **Commission on Evidence-Based Policymaking** released its congressionally mandated report, [The Promise of Evidence-Based Policymaking](#), on September 7, 2017. It has recommendations that follow from its determination that “greater use of existing data is now possible in conjunction with stronger privacy and legal protections, as well as increased transparency and accountability” to support improved federal statistics, policy analysis, program evaluation, and other research. A bill is being drafted to introduce into the U.S. Congress this fall to implement selected recommendations, followed by a second bill in 2018 to implement the recommended National Secure Data Service and make other changes in legislation to facilitate secure access to administrative records for statistical use. The commission’s co-chairs, Katharine Abraham and Ron Haskins, will discuss the report at the CNSTAT seminar on October 20, 2017.

The **Board of the American Statistical Association** at its July 28, 2017, meeting endorsed the 6th edition of CNSTAT’s flagship publication, **Principles and Practices for a Federal Statistical Agency**. The Board previously endorsed the 4th and 5th editions of *P&P*.

CNSTAT *Meetings*

CNSTAT holds three regular meetings each year, with its spring and fall meeting dates following a set formula; our May meetings are always the Thursday–Friday preceding Mother’s Day and our October meetings are always the second-to-last Thursday–Friday of the month. Here are the next three meetings:

CNSTAT’s 134th meeting will be held **October 19-20, 2017**, at the **National Academy of Sciences Building** at 2101 Constitution Avenue NW, Washington, DC. On the **20th**, the meeting will feature a luncheon with statistical agency heads (members of the ICSP), followed by a public seminar, beginning with light refreshments at 1:45 pm and ending with a reception at 4:30 pm. The seminar will feature the report of the **Commission on Evidence-Based Policymaking**, co-chaired by Katharine Abraham and Ron Haskins, and the final report of the CNSTAT **Panel on Improving Federal Statistics for Policy and Social Science Research**, chaired by CNSTAT chair Robert Groves. The seminar will honor **Connie Citro**, former director of CNSTAT, for her numerous contributions to the federal statistical system and the social science research community. Connie stepped down as director in July, and she now serves as a senior scholar at CNSTAT.

CNSTAT’s 135th meeting will be held **February 9-10, 2018**, at the National Academies Beckman Center in Irvine, CA. It will be in retreat format; it will not have a public seminar or agency head luncheon.

CNSTAT’s 136th meeting will be held **May 10-11, 2018**, at the **National Academy of Sciences Building** at 2101 Constitution Avenue NW, Washington, DC. On the **11th**, the meeting will feature a luncheon with statistical agency heads (members of the Interagency Council on Statistical Policy, ICSP), followed by a public seminar, beginning with light refreshments at 1:30 pm and ending with a reception at 4:30 pm.

The Committee on National Statistics was established in 1972 at the National Academies of Sciences, Engineering, and Medicine to improve the statistical methods and information on which public policy decisions are based. The committee carries out studies, workshops, and other activities to foster better measures and fuller understanding of the economy, the environment, public health, crime, education, immigration, poverty, welfare, and other public policy issues. It also evaluates ongoing statistical programs and tracks the statistical policy and coordinating activities of the federal government, serving a unique role at the intersection of statistics and public policy. The committee's work is supported by a consortium of federal agencies through a National Science Foundation grant, a National Agricultural Statistics Service cooperative agreement, and several individual agreements.
