This workshop will explore multiple levels of analysis, including environmental, sociocultural, behavioral, and biological, to see how these factors affect women’s mental health across the life course and across different racial/ethnic groups. The workshop will result in a rapporteur-prepared brief that summarizes the workshop presentations and discussions; the published brief will inform future research as well as program and policy discussions.
Nicholas Eaton, Stony Brook University - PRESENTATION

- Vulnerable Populations: Differences Among Women Make A Difference
  Vickie Mays, University of California, Los Angeles

10:00 – 10:15 am  BREAK

10:15 – 10:55 am  Psychological and Structural Factors in Women’s Mental Health

Moderator: Debra Umberson, University of Texas at Austin

- Psychology of gender
