

## Leadership in Facility Asset Management Forum

### Federal Facilities Council and the Asset Leadership Network

Wednesday, October 19<sup>th</sup>, 2016

**National Academies of Science, Engineering, and Medicine**  
**2101 Constitution Avenue NW, Washington, DC 20418**

Both Presidential candidates have promised to make improving the U.S. infrastructure a major priority. This affirms the need for risk-based resource management. Continued budgetary pressure, increasing operational complexity, and demands for greater transparency and accountability create new requirements and expectations for how organizations manage their assets. This Forum focuses on how these challenges are affecting Federal Facility Asset Management and what Federal employees and service providers can do to improve the use, efficiency and effectiveness of the Federal government's facility and infrastructure.

8:30 am **Welcome and Introductions**

- *Master of Ceremonies: Jack Dempsey, Asset Leadership Network, Jacobs*
- *Welcomes*
