# Federal Directory Demonstration

## Unique, Common & Shared

- Determine attributes needed for ID
  - Unique ID (Use to map to agency profile)
  - Name
  - E-mail address
  - Mailing Address
  - Institution
- Single 'sign-on' to agency resources
- Example: Register with eRA Commons, authenticate in FastLane with same credentials
- Track 'Federated Authentication'
- Grants.gov web services form to collect data

# Federal Directory Demonstration

## Linking to Profiles

- Matrix of common data dictionary
- Designated 'Roles' (NIH) or tables (NSF)
  - Match NIH, NSF and USDA CSREES
  - Over 1 Million 'person' profiles represented
  - 400 thousand reviewer profiles
- SSN used 'behind scene' but not exposed
- Link Federal Directory ID to Profiles

# Collaboration with NGP
