Questions on funding lines

The DoD Appropriations Act of 2011 does not carry forward the 35% Indirect Cost Limitation for Basic Research Awards included in the 2008, 2009, and 2010 Appropriations Acts. However, any 2008, 2009, and 2010 funds on this effort are still subject to a 35 percent restriction on indirect cost reimbursement.

Consequently, some universities have asked AFOSR how to determine what year funding is from the funding line in the awards. Examples from the first numbers in AFOSR funding lines:

57 1 3600 29 1 47...	FY 11 funding
57 0 3600 29 0 47...	FY 10 funding
57 9 3600 29 9 47...	FY 09 funding
