No Cost Extensions

- **AFOSR Director, Dr. Russell, issued clarification on NCE's dated 29 February 2012 (E-mail me if you did not receive a copy)**
- **AFOSR:**
 - **Still issues NCE's**
 - **Considers them on a case by case basis**
- **Institutions need to request extension and provide supporting rationale 30 days prior to expiration of the award.**

Pre-Award Costs

AFOSR will be issuing letter to some recipients waiving 2 CFR 215 requirement for approval to incur pre-award costs 90 calendar days prior to award. In these instances:

- AFOSR has certified the availability of funds.**
- PI and business office will receive an email from AFOSR's Contracting Office stating that the PI is authorized to incur pre-award costs 90 days prior to the receipt of award documents.**
- All pre-award costs are still at the recipient's risk.**

Final Technical Reports

AFOSR Director developing a letter to all recipients underscoring that timely receipt of Technical Reports is vital for achieving AFOSR's mission to discover, shape, and champion basic research.

Elements of Letter:

- **New Automatic Reminder System**
- **Firm date after which modification requests will no longer be accepted**
- **Escalating consequences to PI's and their institutions for sustained failure to submit Final Technical Reports**
- **AFOSR welcomes feedback**

Scheduled Payments to Invoicing

Reminder: AFOSR has transitioned from scheduled payments to invoicing through WAWF.

- **As of 1 November, DFAS shut off all scheduled payments in AFOSR's efforts**
- **All awardees must now invoice through WAWF**
- **Most grants have now been modified to delete scheduled payments and add WAWF information.**
