

# Industry University Cooperative Research Centers

- Discussion of the Northrop Grumman Engagement in external research activities
- The value of our participation in the I/UCRC Network
- Example Centers we have participated in in the past
- How we make best use of our participation in these Centers
- How the I/UCRC business model has further influenced select Industry Primes
- Current internal activities to promote enhanced and broader participation in I/UCRC's

**Recommend other Industrial Partners strongly consider their participation in the NSF I/UCRC Network**
