This Set is not intended for children who cannot read and understand the accompanying instruction book.

Dual-Career Academic Couples *What Universities Need to Know*

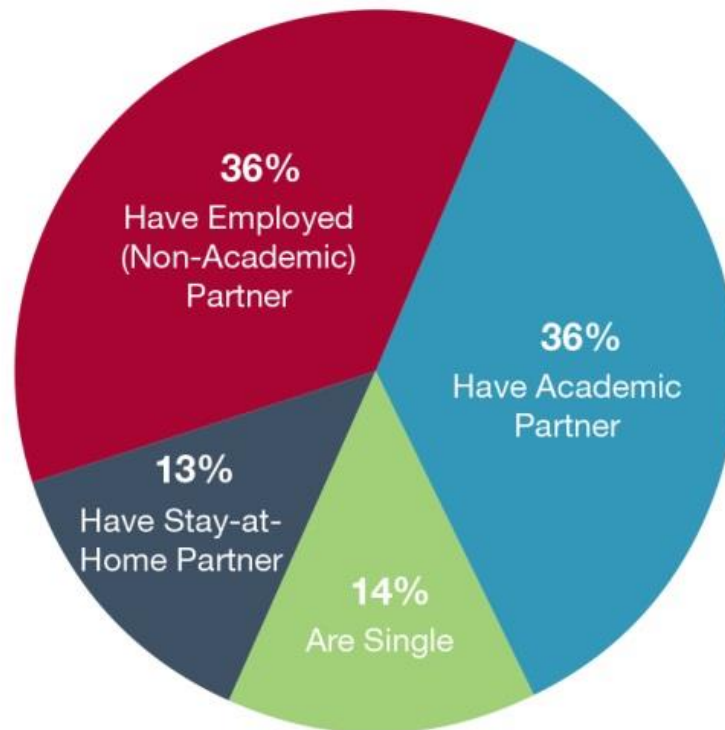

Londa Schiebinger, Andrea Davies Henderson,
Shannon K. Gilmartin

Michelle R. Clayman Institute for Gender Research
Stanford University

Meeting the needs and expectations of dual-career academic couples—while still ensuring the high quality of university faculty—is the next great challenge facing universities. Academic couples comprise 36 percent of the American professoriate—representing a deep pool of talent (Figure 1)

FIGURE 1: PARTNER STATUS OF U.S. ACADEMIC WORKFORCE^{^*}‡

9,043 Full-Time Faculty from 13 Leading Research Universities

**Seventy-two percent of full-time faculty in this study have employed partners.
Thirty-six percent have academic partners.**

[^] All data derive from the Clayman Institute's Managing Academic Careers Survey unless otherwise noted.

^{*} Percentages do not add to 100 due to rounding.

[‡] See Appendix D for methods notes.

In the early 1990s, about **11 percent** of those 65 and older remained in the workforce. By contrast, this April, **19 percent** remained at work, according to the most recent monthly calculations from the Board of Labor Statistics.

The pattern continues for those 75 and older. In the 1990s, **4 percent** of the population over 75 remained in the workforce. Since December, it has been above **8 percent** each month.
