

Uses of Reporting

- Accountability – is the work agreed to in the grant or agreement being done?
 - *Risk management* – *OMB oversight of potential for waste, fraud and abuse*
- Benefits – what did the Federal investment produce?
 - *Publications*
 - *Leveraged research investments*
 - *Patents and licenses*
 - *Student --→ employment and jobs*

Other issues:

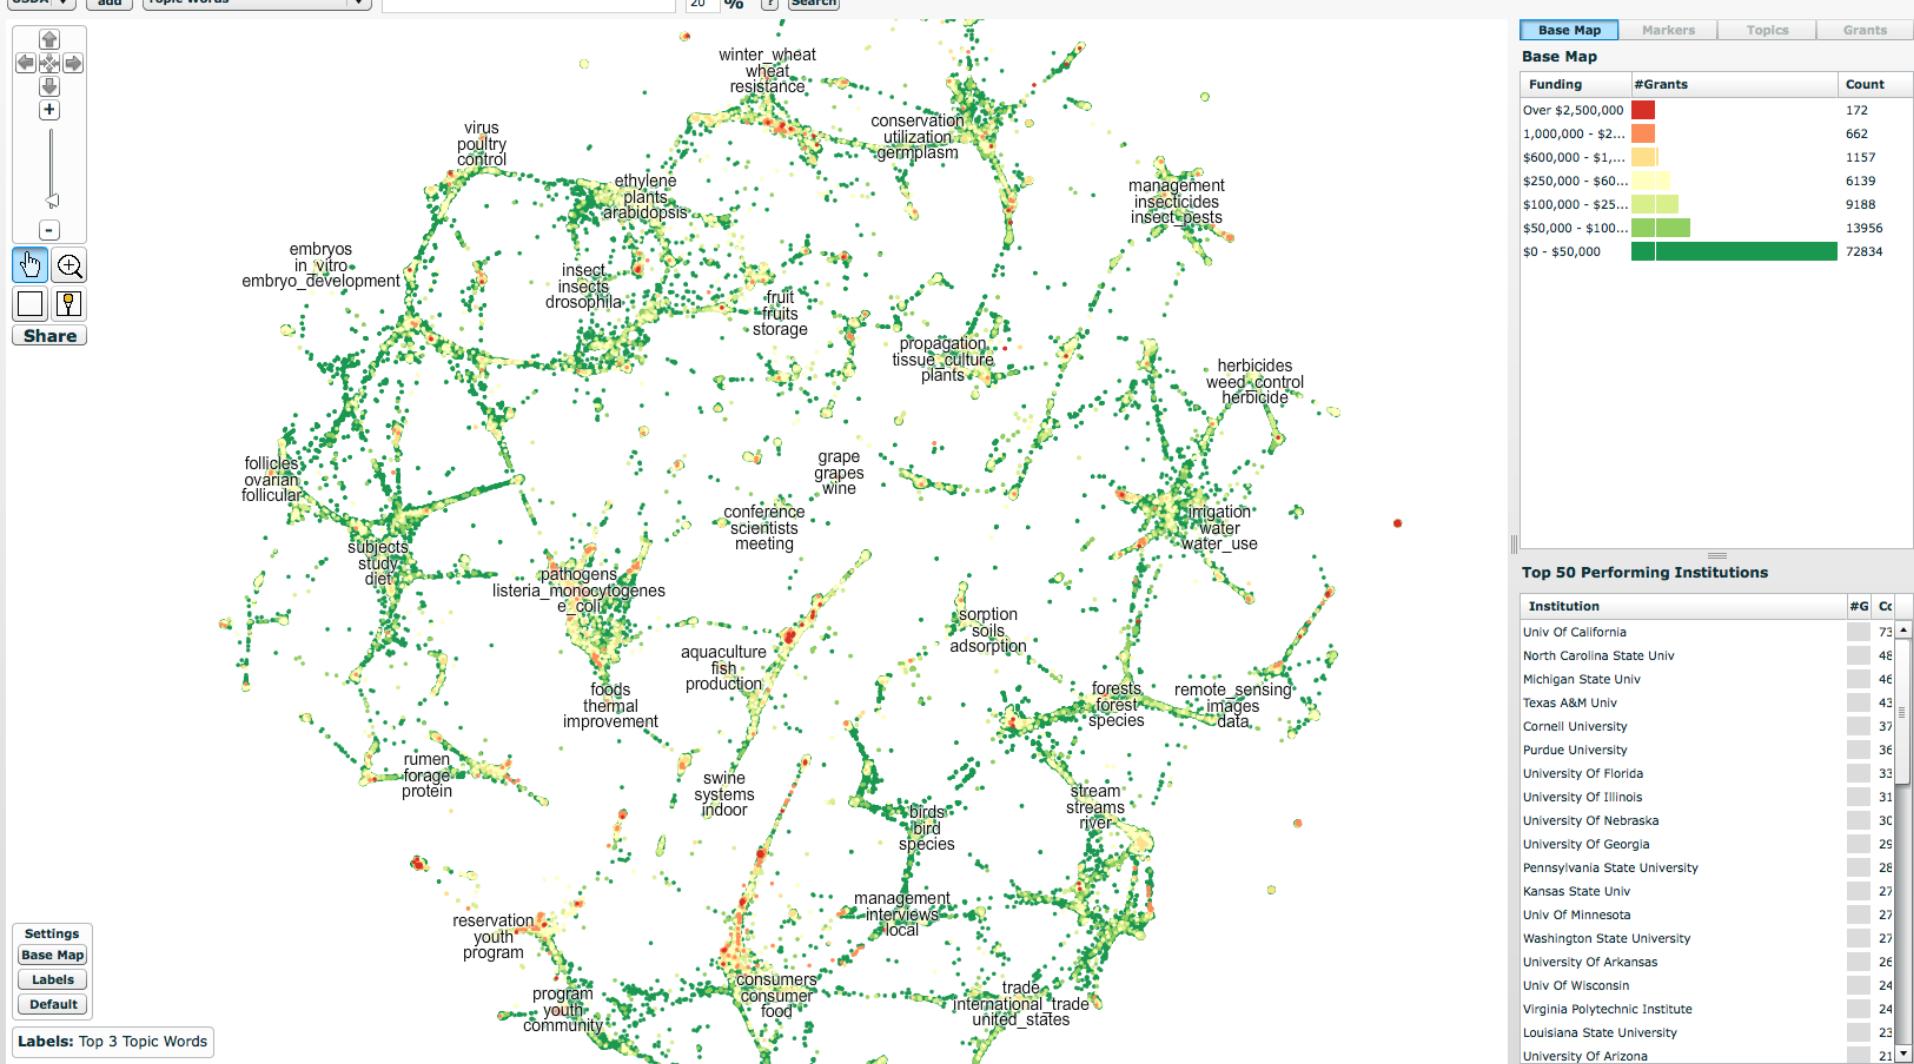

- GAO audit – *duplication in research investments*
- Farm Bill - *Congressional Reporting*
- Priority setting – *where should the intramural agencies be making their investments*
