VOTER INFORMATION TECHNOLOGIES

The Future of Voting

OMNIBALLOT

Who is Democracy Live?

- Founded in 2007, our first initiative was to provide accessible voter services to the State of Washington.
- After the passage of the MOVE Act, we became the largest provider of electronic ballot delivery to military and overseas voters---in over 400 jurisdictions, 96 countries and on every continent. This feature has been successfully deployed in more than 1000 U.S. elections.
- We have combined our expertise in accessibility and secure ballot delivery to develop and deploy a full suite of products and services designed to meet the needs of all voters, including voters with disabilities.

Who is Democracy Live?

- Our team includes seasoned elections professionals, highly-skilled developers, certified project managers and a dedicated team of operational specialists.
- We employ a group of advisors consisting of voters from around the nation with visual impairments or other disabilities. These advisors provide us with a wealth of insight and help shape our products and policies.
- Democracy Live prides itself on incorporating feedback we receive directly from our customers. We value the expertise of election administrators and actively seek their input.

What does the future hold?

- ✓ Accessible
- ✓ Adaptable
- ✓ Auditable
- ✓ Collaborative
- ✓ Cost-effective
- ✓ Efficient
- ✓ Intuitive
- ✓ Innovative
- ✓ Interoperable
- ✓ Multi-functional
- ✓ Responsive
- ✓ Secure

How do we achieve this?

Recognize the “eco-system” of the elections industry and the roles within this system

- Voters
- State and local election administrators
- Governing bodies
- Local communities
- Legislators
- Election-service providers (hardware and software)
- Political parties
- Regulators
- Academia
- Technologists
- Special interest groups and advocates
- Media
