

Cold Spring Harbor Laboratory

April 8, 2019

Cold Spring Harbor Laboratory recognizes that in order to achieve a high level of science we require a diverse, respectful, and inclusive research and educational community. To realize this goal, Cold Spring Harbor Laboratory joins the Action Collaborative with the following specific goals.

To advance efforts to prevent and effectively respond to sexual harassment, Cold Spring Harbor Laboratory is joining other institutions and the National Academies of Sciences, Engineering, and Medicine to form an *Action Collaborative on Preventing Sexual Harassment in Higher Education*. This Action Collaborative will facilitate partnerships and joint action on addressing and preventing sexual harassment. Together, with the other institutional members of the Action Collaborative, we aim to achieve targeted, collective action toward evidence-based policies and practices at the individual and systems levels for addressing and preventing all forms of sexual harassment and promoting a culture of civility and respect. The four goals of the Action Collaborative are to:

- Raise awareness about sexual harassment and how it occurs, the consequences of sexual harassment, and the organizational characteristics and recommended approaches that can prevent it.
- Share and elevate evidence-based institutional policies and strategies to reduce and prevent sexual harassment.
- Contribute to setting the research agenda, and gather and apply research results across institutions.
- Develop a standard for measuring progress toward reducing and preventing sexual harassment in higher education.

Cold Spring Harbor Laboratory hereby commits to support the goals of the National Academies of Sciences, Engineering, and Medicine *Action Collaborative on Preventing Sexual Harassment in Higher Education*.
