

The National Academies of
SCIENCES • ENGINEERING • MEDICINE

You are invited to a Congressional Briefing:
The Integration of Immigrants into American Society

Tuesday, April 12, 2016
2:00 p.m. - 3:00 p.m.
106 Dirksen Senate Office Building

The **Integration of Immigrants into American Society**, a report by the National Academies of Sciences, Engineering, and Medicine, examines how immigrants are integrating into U.S. society and finds that the newest waves of immigrants are assimilating into American society across a broad range of measures.

The Academies, in conjunction with **Senator Patty Murray**, invite you to join a discussion on the report. Members of the report committee, a panel of experts from top research institutions, will discuss comprehensive data from the report on the integration of immigrants in a multitude of areas including education, employment and earnings, occupations, poverty, residential integration, language, health, crime, and family patterns.

You can access more information and download the report at:
<http://nationalacademies.org/ImmigrantIntegration>.

Speakers:

- **Mary Waters**, Committee Chair, M.E. Zukerman Professor of Sociology, Harvard University
- **Karthick Ramakrishnan**, Committee Member, Professor of Public Policy and Political Science, University of California, Riverside
- **Richard Alba**, Committee Member, Professor of Sociology, The Graduate Center, City University of New York

Refreshments will be served.

please contact Julie Schuck at JSchuck@nas.edu.

This is a widely attended event.

The National Academy of Sciences, National Academy of Engineering, and National Academy of Medicine work together as the National Academies of Sciences, Engineering, and Medicine to provide independent, objective analysis and advice to the nation and conduct other activities to solve complex problems and inform public policy decisions. The Academies also encourage education and research, recognize outstanding contributions to knowledge, and increase public understanding in matters of science, engineering, and medicine.
