Results of Decadal Issues Identification

Prioritization of Potential 2004 GUIRR Activities Based on Analysis of Decadal Issues

Activities suggested to date (others will be added based on meeting discussion):

- S&E communications institute
- Study of S&E training levels required for non-S&E federal jobs
- Assessing the technology and content needs for public alert systems
- Branding “authoritative” knowledge on the web
- Rationale for sectoral assignment of applied R&D
- Lobbying infrastructures in the biomedical vs. physical sciences
- Globalization strategies for the teaching mission of universities

12:00 Noon Adjourn
