

Enabling Sustainability:

S&T are Key!

What's Needed...?

- ✓ *Education* to engage legislators, the media, the public and the next generation
- ✓ *Collaboration* to build a strong, vibrant and vocal technical community
- ✓ *Innovation* to recreate our companies, our universities/schools and ourselves

Innovation:

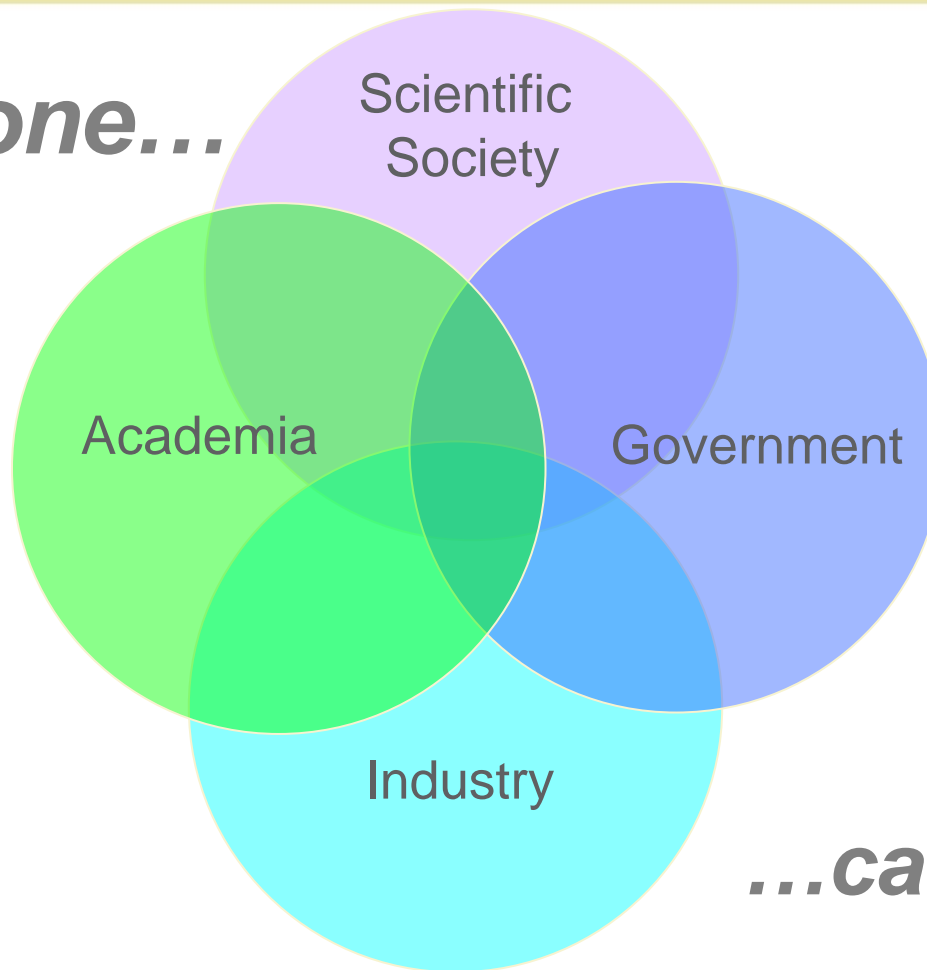

▶ *My definition...*

- ▶ The act of creating a new product or process.
- ▶ The act includes invention, as well as, the work required to bring an idea or concept into final form.

Collaboration:

Changing the Way We Innovate!

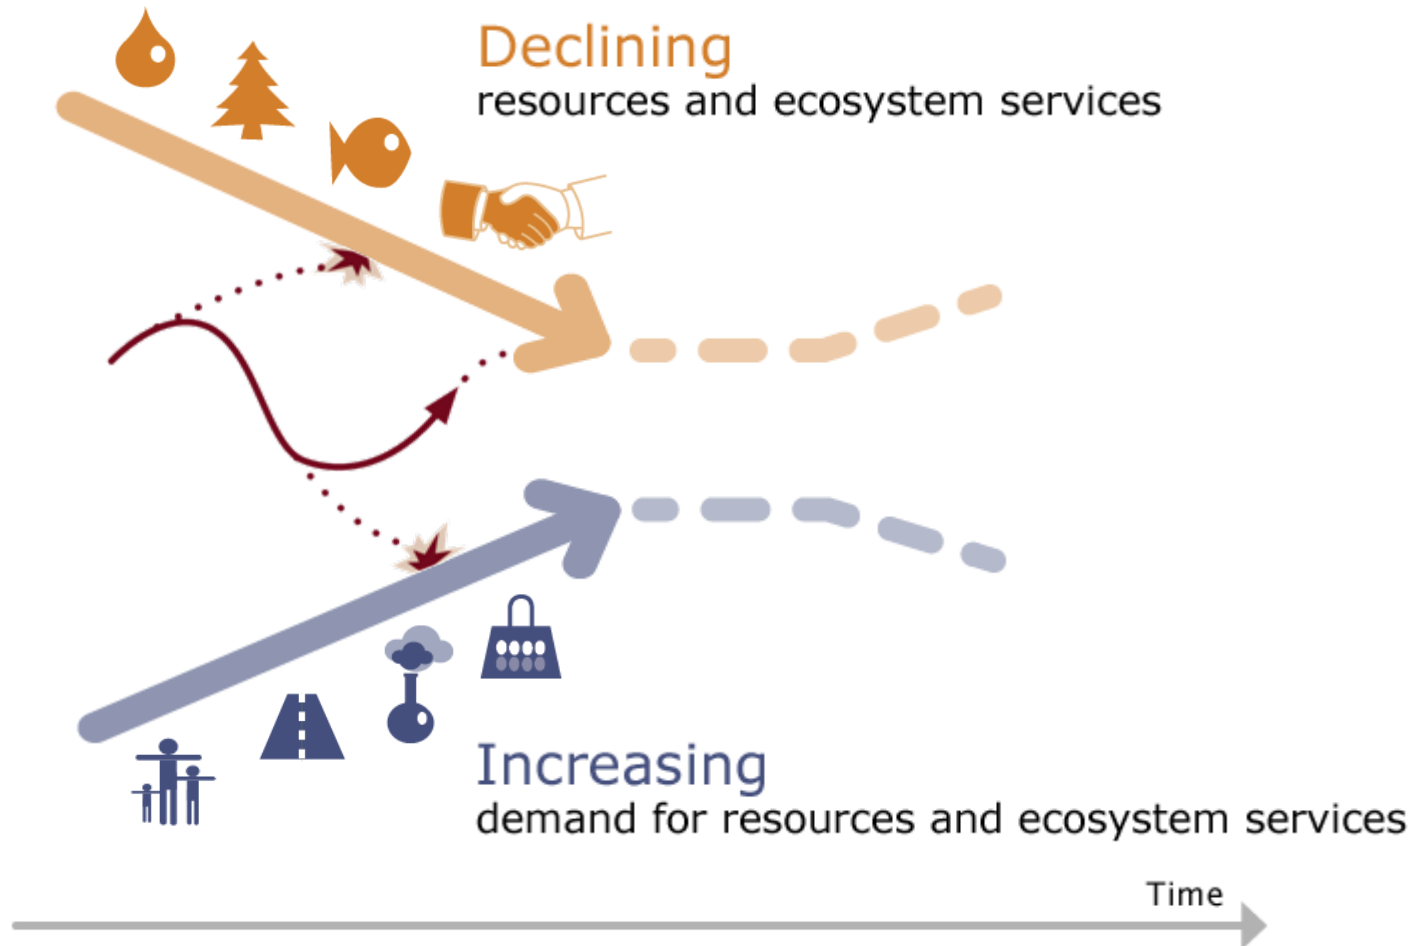

No one...

...can go it alone!

Moving from Unsustainable to Sustainable

Opening up the Funnel...

Leadership ...

Three Key Ingredients

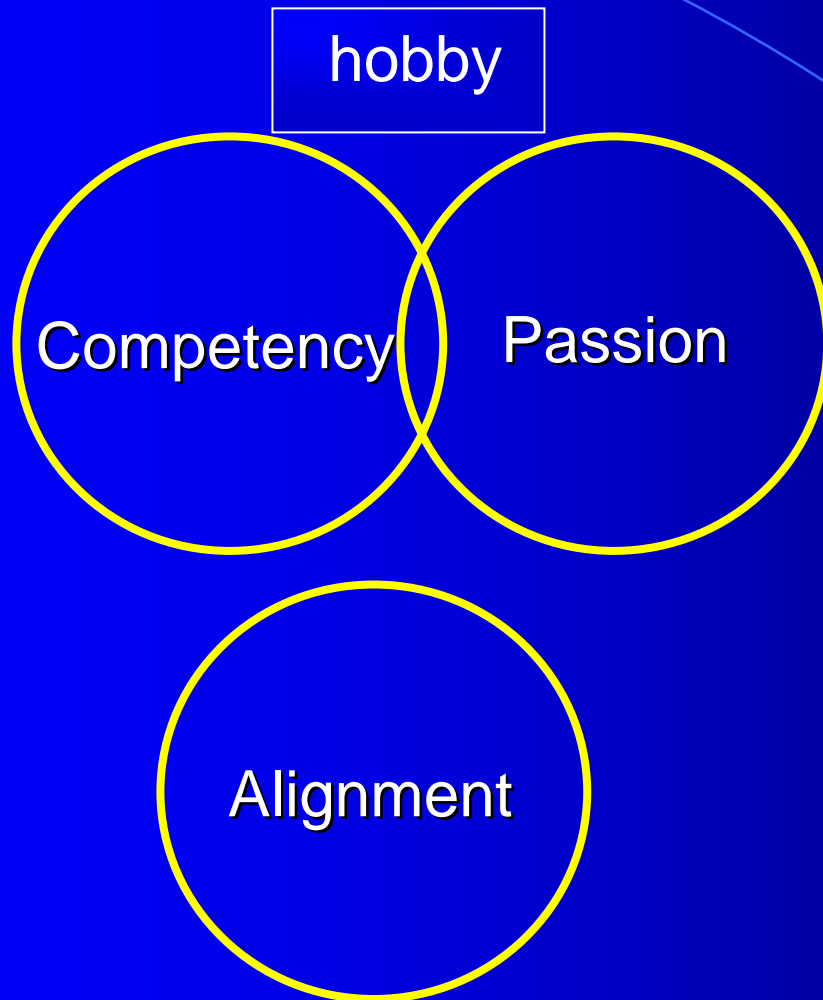

Competency

The diagram consists of three yellow-outlined circles arranged in a triangular pattern. The top-left circle contains the word 'Competency', the top-right circle contains 'Passion', and the bottom-center circle contains 'Alignment'. The background is a dark blue gradient with a lighter blue curved shape on the right side.

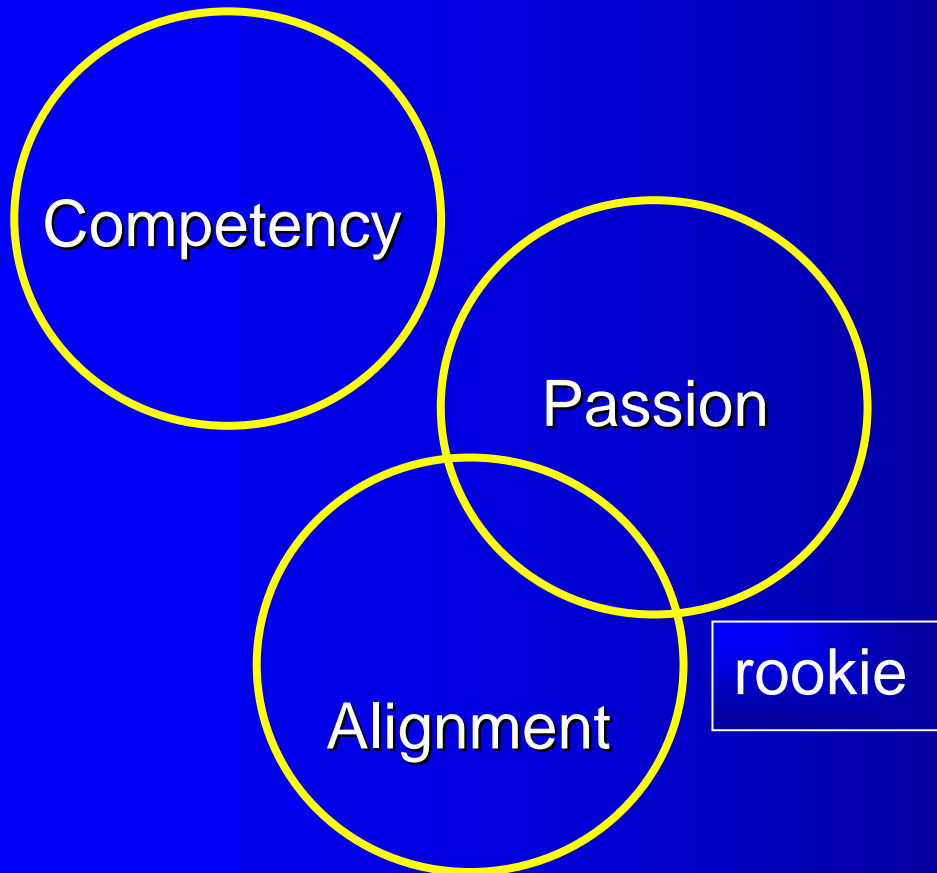

Passion

Alignment

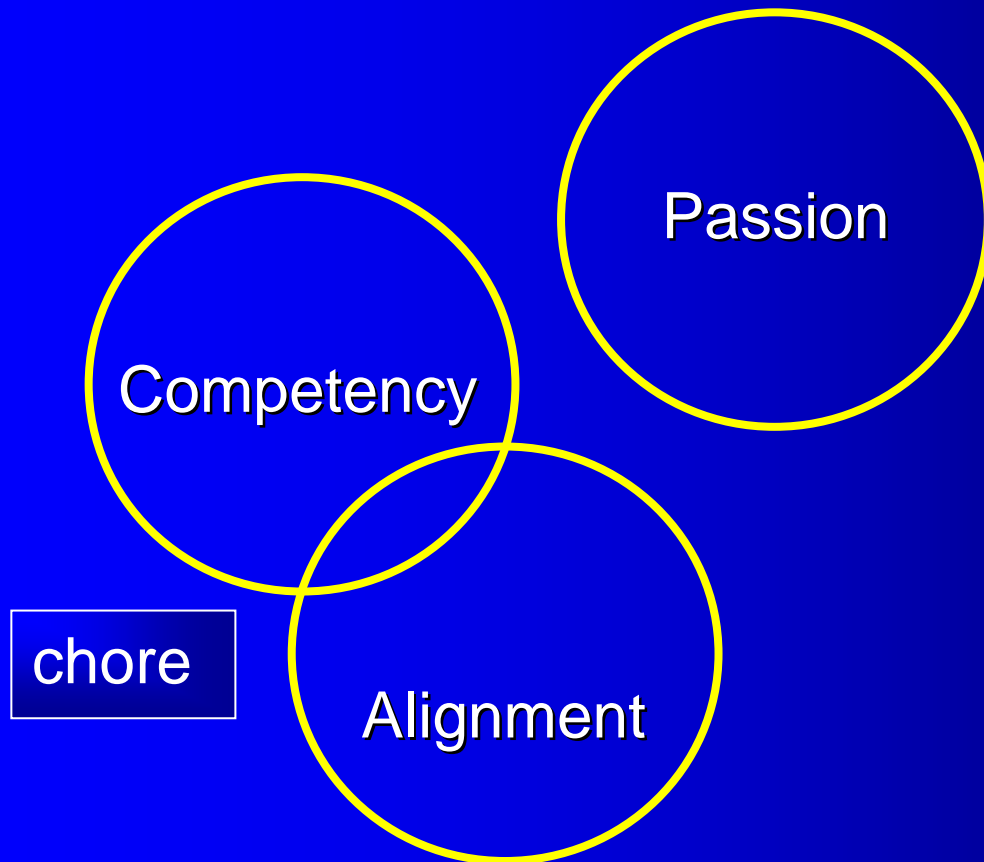

...Two out of Three...
