Measures Structure

GOAL

Climate Protection

PURPOSE

Achieve greenhouse gas emissions and criteria air pollutant reductions in both municipal operations and the community at large.

MEASURES

- **POLICY** Adoption of a GHG emissions reduction statement, resolution or legislation that identifies course of action for achieving the goal.
- **PRACTICE** Conduct a greenhouse gas emissions inventory, develop a climate action plan, and implement plan strategies.
- **PERFORMANCE** Documentation that demonstrates achievement of performance toward established target for reduction in greenhouse gas emissions.
- **PROGRESS** Demonstration of a [annual or bi-annual] decrease in greenhouse gas emissions.
