

## The Case for International Sharing of Scientific Data: A Focus on Developing Countries

*An International Symposium*

### Stephen M. Griffin

Stephen M. Griffin is a Program Director in the Division of Information and Intelligent Systems at the National Science Foundation (NSF). For the period 1994-2004, Mr. Griffin managed the Special Projects Program that included the Interagency Digital Libraries Initiatives and the International Digital Libraries Collaborative Research and Applications Testbeds program. He has been active in working groups for Federal high performance computing and communications programs, and serves on numerous domestic and international advisory committees related to digital libraries and advanced computing and networking infrastructure.

In 2004-2005 he was on special assignment to the Library of Congress, Office of Strategic Initiatives, to assist with the National Digital Information and Infrastructure Preservation Program. He is currently again on assignment to the Library of Congress as a senior Visiting Scientist and advisor to the Associate Librarian for Strategic Initiatives and Chief Information Officer. His research interests include scholarly communication, cultural heritage informatics and data-intensive scholarship.
