

# Often asserted, rarely measured: The **value of (re)integrating** humanities, STEM, and arts in undergraduate learning

Hannah Stewart-Gambino

Government & Law, International Affairs

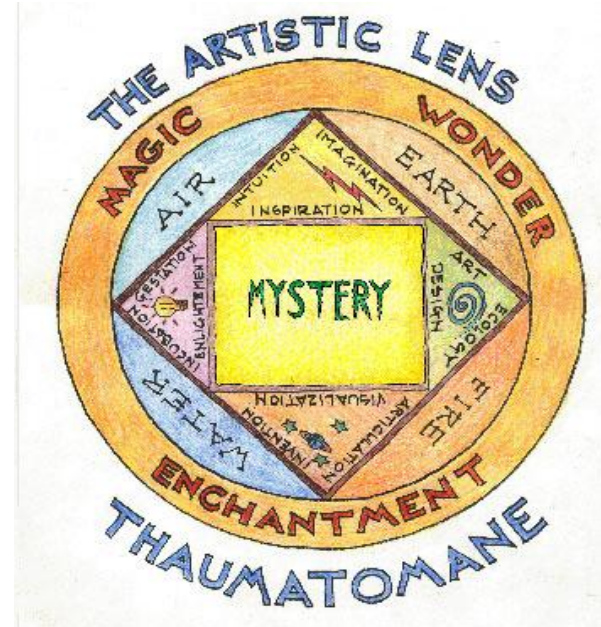

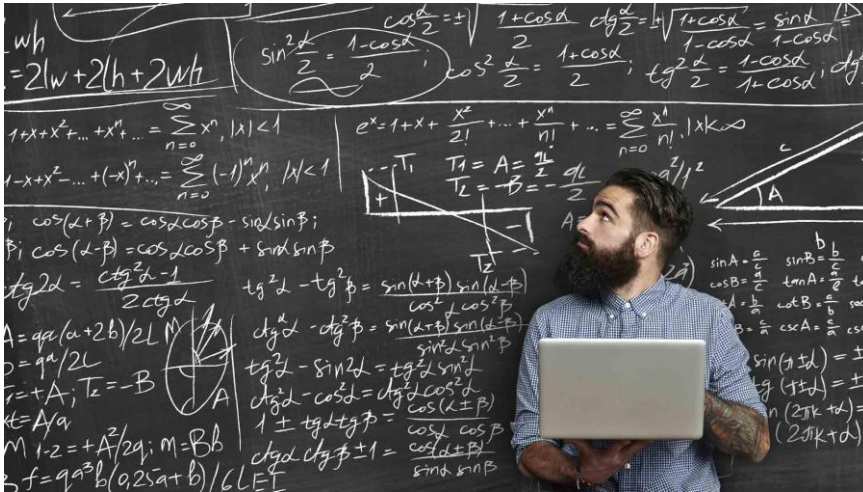

Jenn Stroud Rossmann

Mechanical Engineering

*The National Academies of*  
SCIENCES • ENGINEERING • MEDICINE

**LAFAYETTE**  
COLLEGE

# Research Question

# Overview

- Why does this matter?
- Can Hum/Arts strengthen STEM learning?
- Can STEM strengthen Hum/Arts learning?
- What about strengthening *each other*?
- Who benefits?
- Why don't we already do more of it?
- What should “we” do next?

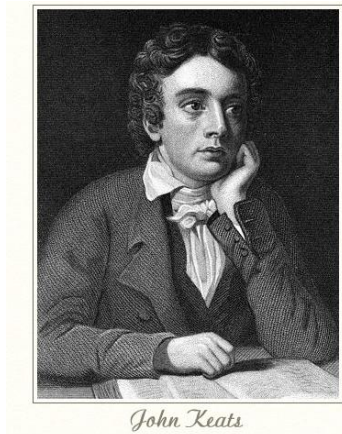

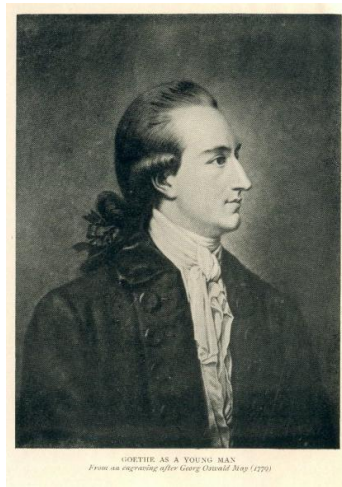

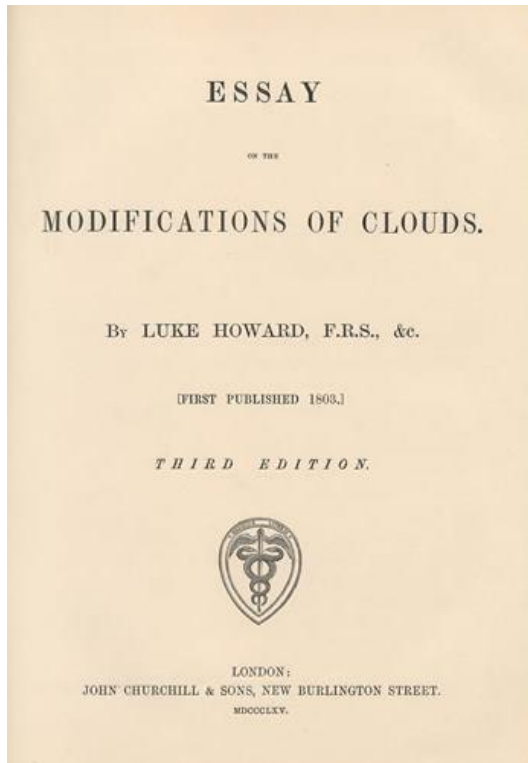

What did we expect to find?  
Inspiration, antipathy, **(re)**integration?

THE GREAT SPIRAL NEBULA

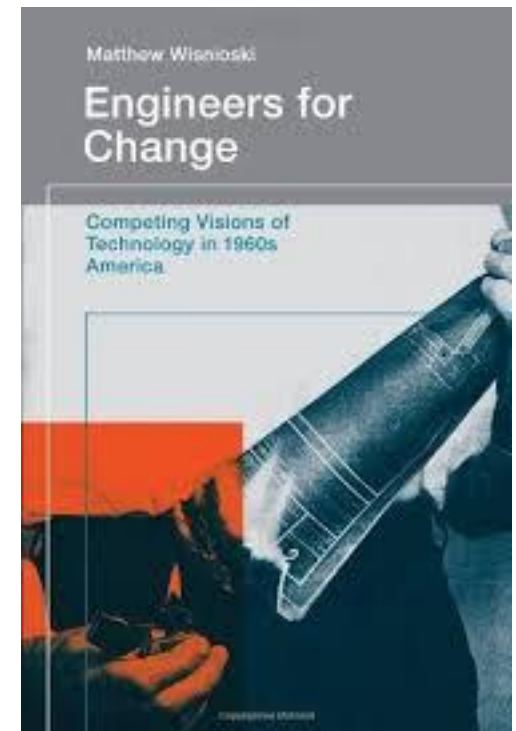

# After all, is this so new? **re-integration**

Study of Clouds

John Constable, 1822

# Idealistic integration

# Examples of Integration *and what motivates it*

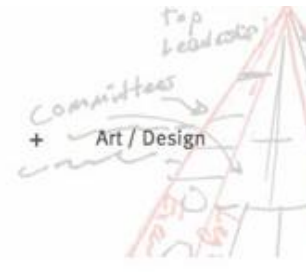

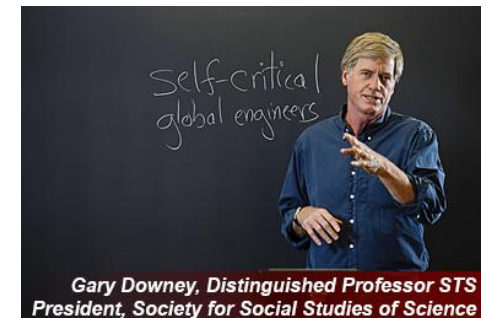

Olin College

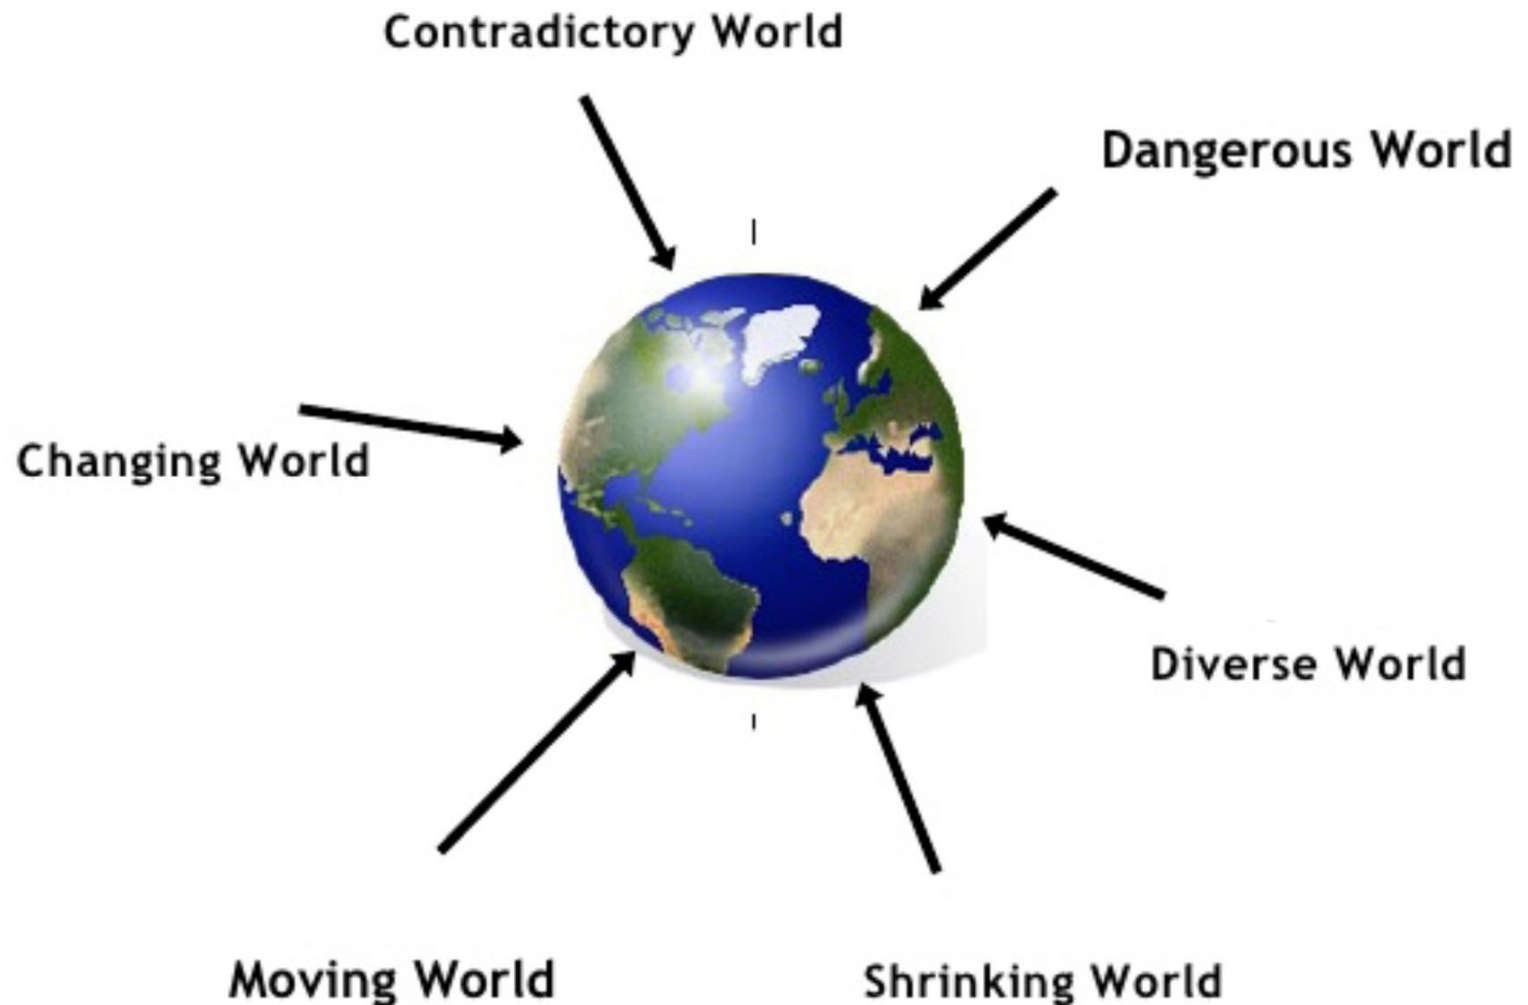

CAL POLY  
SAN LUIS OBISPO

Liberal Arts and Engineering  
Studies

*Freedom to Choose / Freedom to Create / Freedom to Travel*

# Humanities and the Arts

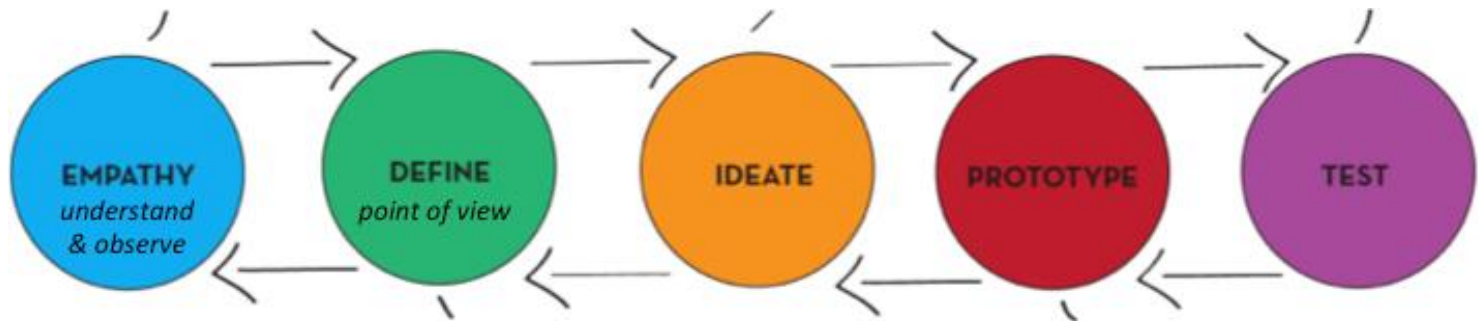

The whole point of the liberal arts education –  
that fragile, extraordinary, valuable thing, which is  
being put in your hands and has been put in your hands–  
is to teach you to participate as full  
partners in the making of the world around you.

Noah Feldman  
2014

# The **promise** of experiential, multidisciplinary design projects

- **Understanding** the needs of the user & stakeholders (developing **empathy**) as well as the **context**; social structure, institutions
- **Defining** the stakes of the project:
  - Constraints
  - Objectives

## SCIENTIFIC AMERICAN™

### **Novel Finding: Reading Literary Fiction Improves Empathy**

The types of books we read may affect how we relate to others

Expertise/content from social  
sciences and humanities relevant

# Student outcomes

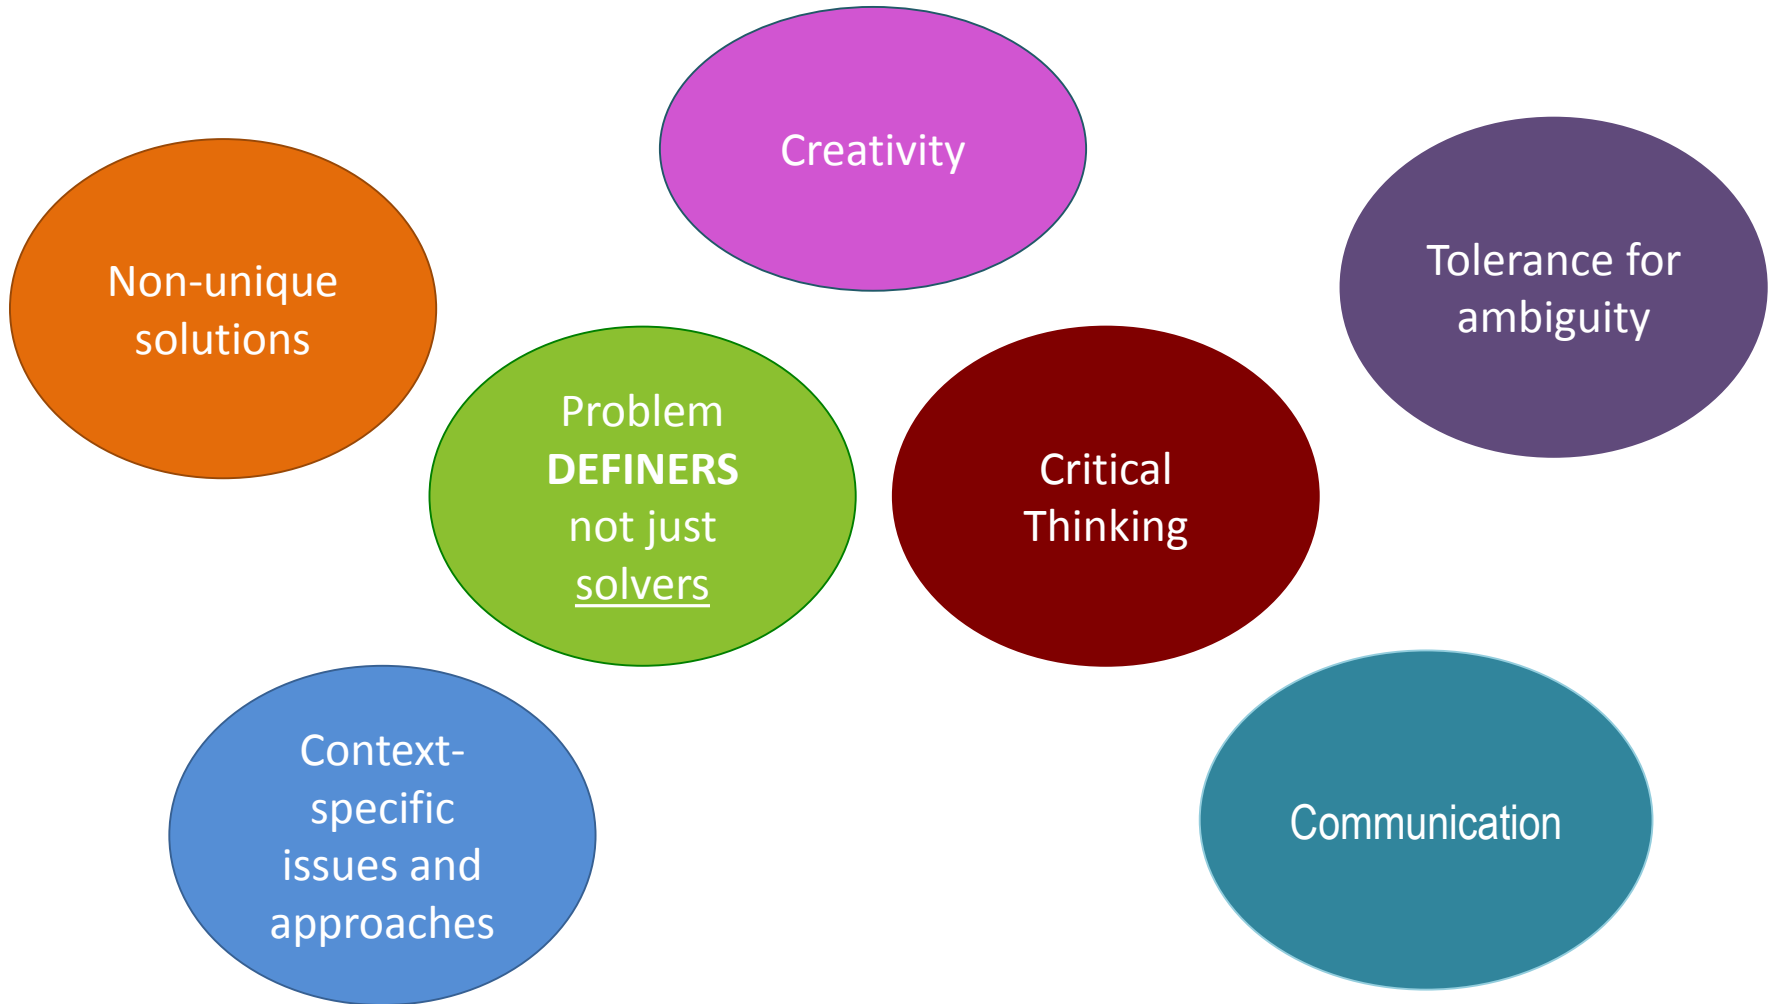

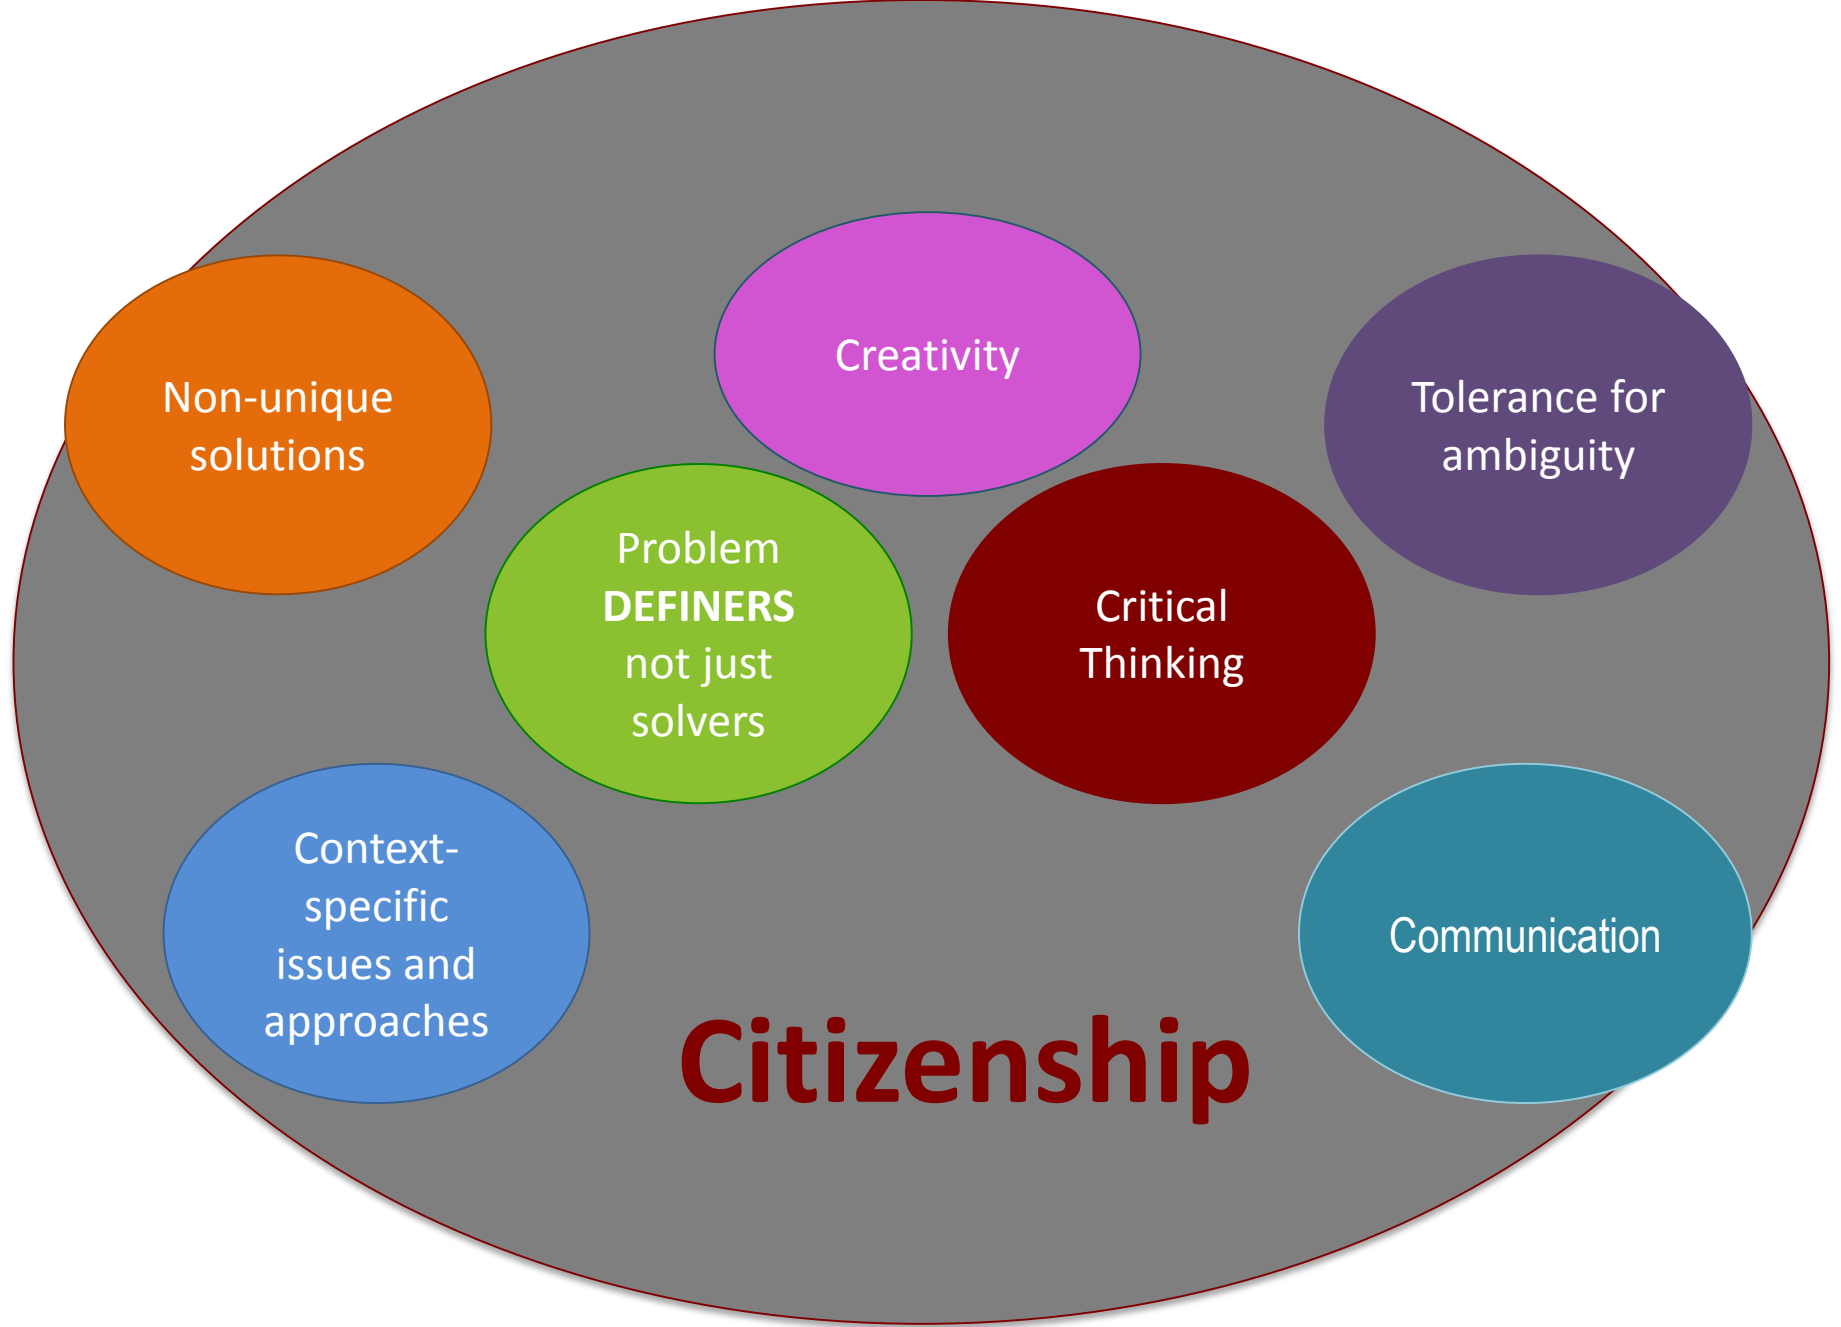

Non-unique  
solutions

Problem  
**DEFINERS**  
not just  
solvers

Context-  
specific  
issues and  
approaches

# Everyone at the table

# *Reciprocal benefits of (re)integration*

## STEM students

- **Grounded Citizenship**
  - *Socio-historical analysis*
  - *Analytical Rigor – texts, broadly defined*
  - *Values, Ethics*
  - *Team and leadership skills*
  - *Communication skills – written and oral*
- **Understanding of constraints in human/social worlds**
  - *Empathy*
- **Creativity**
- **Projects that can change the world for the better**

## Humanities and Arts students

- **Grounded citizenship**
  - *Design Thinking: “How might we...”*
  - *Analytical Rigor – quantitative reasoning, broadly defined*
  - *Team and leadership skills*
  - *Communication Skills – visualization and presentation*
- **Understanding of constraints of physical and natural worlds**
  - *Empathy*
- **Creativity**
- **Projects that can change the world for the better**

# Other benefits

# Measurement and/versus accountability

**Melinda Gates** ✓

@melindagates

Bill and I are used to being called data nerds.  
If it means saving more lives, that's just fine.

# *How can integration be sustained and nurtured?*

## Vision and support

- Institutional Leadership
- Networks of colleagues
- Funding agencies
- Employers
- Political leaders

## Obstacles

- Faculty reward structures
- Misplaced resource competition
- Measurement instead of accountability
- Administrator reward structures
