Arizona State University

11:15 a.m. Technologies for a Venus Flagship Mission Jeffrey L. Hall
Jet Propulsion Laboratory

12:00 p.m. Committee Discussion
(*Lunch will be served in the Beckman Refectory, panel discussion will continue*)

¹ Updated October 20, 2009

² See notes on final page for webcasting and audio-access information.

This meeting is being held to gather information to help the committee conduct its activities. The committee will examine the information and material obtained during open sessions in an effort to inform its work. Although opinions may be stated and lively discussion may ensue, no conclusions are being drawn at this time. Therefore, observers who draw conclusions about the committee's work based on today's discussions will be doing so prematurely.

Furthermore, individual committee members often engage in discussion and questioning for the specific purpose of probing an issue and sharpening an argument. The comments of any given committee member may not necessarily reflect the position he or she may actually hold on the subject under discussion, to say nothing of that person's future position as it may evolve in the course of the committee's activities.

1:00 p.m.	Artemis Mission Update	Krishan Khurana University of California, Los Angeles
1:30 p.m.	In Situ Dating 1	Timothy Swindle University of Arizona
2:15 p.m.	In Situ Dating 2	F. Scott Anderson Southwest Research Institute

NOTES

Note to presenters: If your presentation contains unpublished data, ITAR controlled and/or other sensitive information, please be aware that the open sessions at the meeting will be webcast and presentation materials given to the committee will be posted on a publicly accessible website. Please edit your presentations accordingly.

Beckman Center: Is located on the campus of the University of California, Irvine. See the following website for more information, including directions:

<http://www7.nationalacademies.org/beckman/>

Hotel: The Inner Planets Panel has reserved a block of rooms the Island Hotel, 690 Newport Center Drive, Newport Beach, CA 92660. Additional information, including directions can be found at the following website: <http://www.theislandhotel.com/>. This hotel was previously called the Four Seasons and is still marked as such on some old maps. There are a large number of restaurants within walking distance of the hotel in the Fashion Island shopping complex.

Working Dinner: The Inner Planets Panel will hold a working dinner at Roy's Hawaiian Fusion Cuisine, 453 Newport Center Drive, Newport Beach. This is within walking distance of the Island Hotel. More information can be found at the following website:
<http://www.roysrestaurant.com/index.asp>.

Webcast Access: Webcast at <http://nasa-nai.acrobat.com/psdecadal/>. To receive audio you must call 866-606-4717 (domestic) or 1-309-495-0763 (international). Access code 7078272.

Parking: There is plenty of free parking at the Beckman. There is no self-parking at the Island. The hotel only has valet parking. It can be somewhat inconvenient at times. Is that rental car really necessary?

Airports: Orange County/John Wayne Airport (SNA) is about 2 miles from the Beckman Center and the Island Hotel. Los Angeles International Airport (LAX) is about 40 miles away from the meeting site. Long Beach Airport is at an intermediate distance.
